PLATFORM OF THE NATIONAL REPUPLICAN PARTY.

When, in the economy of Provisence, this land was to be purged of human slavery, and when the strength of the Government of the people, by the people for the people was to be demonstrated, the Republican party came into power. Its decis have pusse time history, and we look back to them with pride, incited by their memories and high aims for the good of our country and mankind. And looking to the future with unfaltering courage, hope and pur-pose, we, the representatives of the party in na-tional convention assembled, make the follow-

eclaration of principles: First--The United States of America is a nation and not a league, and by the combined workings of National and State Governments ander their respective Constitutions the rights

Second—The Republican party has preserved those governments to the hundredth anniversary of the nation's birth, and they are now emb itments of the great truths spoken at its cradle—that all men are created equal; that they are endowed by their Creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness: that for the at ainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed, and until these truths are cheerfully obeyed, or, if needed to be vig cousty on orded, the work of the Republican party is untirished.

Third-The permarent pacification of the Southern section of the Union, and the cornplete protection of its citizens in the free en-joyment of all their rights, are do ies to which he nepublican party stands sacre by pledged. The power to provide for the enforcement of the principles embodied, it is recent a nstitu-tional amendment is vested by these amendments in the Congress or the United States—and all declars it so to be—the sciential obligation of the Legislative and Executive Departments of the Government is to put into immediare and vigorous exercise all the constructional powers for removing any just causes of discen-enten the part or any class and for securing to every timerican cit in complete fiberty and exact equality in the exercise of civit, political and public rights. To the end we imperatively deman to Gong ess and a Chief Executive whose courage and facility to those duties shall not taker until these results are placed beyond dis-

pute or r call. Four h-in the first Act of Congress signed President Grant the National Gov-nant sought to remove any doubts is duties to discharge all just obligations o public creations, and schemnly piedged is 1.1 h to make a pro-i ion at the earli-st pro-the period or the redemption of United states made in com (Cheers) commercia-property, puts mirals and the national eridin now dens of that the promise be tal-nified by a costumous and ates y progress to specie paym, his.

Fifth-Under the Constitution, the Presiient and heads of departments are to make actuitations for cilice the Schale is to advise and consent to the appointments, and the House and consent to the appearant his, and no frouse of Berresentatives to because and prosecute faithless officers. The nemest deciands of this class of citizens for ad-ditional rights and crivileges and innouncies should be treated with respectful consideration,

Thirteenth-The Constitution confers upon Cugass soverige tower over the Territories of the United States for their government, and in the exercise of this power it is the right and the daty of Congress to probibit and extirpate in the Territories, that relic of tarbarism, polygamy, and we demand such legislation as shall secure this end and the supremacy of American institutions in all our Territories.

Fourteenth-The pledges which the nation has given to our soldiers and sailors must be fulfided. This great people will always hold those who periled their lives for their country's preservation in the kindest remembrance.

Fi'teenth-We sincerely deprecate all sec timal feeling and tendencies, and we, therefore, note with deep solicitude that the Democratic party counts, as its chief hope of success, upon the electoral vote of a united South secured through the efforts of those who were recently arrayed against the nation, and we invoke the carriest attention of the country to the grave truth that the successes thus achieved would reo; en sectional strife and imperil the national honor and human rights.

Sixteenth-We charge the Democratic party with being the same in character and spirit as when it sympathized with treason; with mak-ing its control of the House of Representatives the triumph and the opportunity of the nation's recent foes; with reasserting and appleuding at the National Capitol the sentiments of unre-repentant rebellion; with sending Union soldiers to the well and promoting Confederate soldiers to the frent; with deliberately proposing to rendiste the allighted faction of the feet. ing to repudiate the plighted faith of the Gov ernment; with being equally false and imbecile in overshadowing the ends of fusion by its partisan mismanagement and obstruction of inves tigation; with proving itself through the period of its ascendency in the Lower House of Con-gress, utterly incompetent to administer the Government, and we warn the country agains trusting a party thus slike unworthy, recreant and incapable.

Seventeenth - The National Administration merits commendation for its honorable work in the management of domestic and foreign affire, and President Grant deserves the continued and hearty gratitude of the American people for his patriotism and his immense services in war and
